QUEEN'S UNIVERSITY BELFAST BENG SOFTWARE ENGINEERING

2017 – 2021

First Year

Reasoning for Problem Solving 83
Architecture & Networks 72
Databases 69
Programming in Java 66
Introduction to Software Engineering 66

Second Year

Professional Computing *

Practice *

Architecture & Networks *

Data Structures & Algorithms *

Information Modelling *

Software Development *

Software Engineering *

***Grade pending 2019**

BELFAST METROPOLITAN COLLEGE EXTENDED DIPLOMA IN IT

2015 – 2017

I studied an OCR Level 3 Cambridge Technical Extended Diploma in IT – Software Development Pathway. I achieved an overall grade of Distinction*Distinction*Distinction. Projects included:

- Building a functioning database using Microsoft Access
- Building websites using HTML5, JavaScript and CSS
 - Building an encryption application using C#

I also acquired two Microsoft Technical Associate qualifications in HTML5 and C# Fundamentals.

BELFAST ROYAL ACADEMY

2010-2015

A	B	C
Business Comm. Systems	Mathematics English ICT	Physics Business Studies

EXPERIENCE

SAN ANDREA'S ROLEPLAY – GTA:SA

www.gta-sarp.com

I worked as part of a small development team for three years. This involved using community suggestions for new features, which were then programmed, tested and pushed to the multiplayer server. PAWN and MySQL and GitHub were used frequently.

MICHAEL MCMULLAN ORTHOPAEDIC SURGEON

www.belfastlimbrecon.com

I worked with Michael and his secretary to provide a professional and functional website. The website was built using WordPress alongside other extensions to meet his needs. An example of this was an appointment booking system for his clients, which synced with his calendar application.

NORTH BELFAST'S MEN'S SHED

www.ashtoncentre.com

I worked with Geraldine Nelson to outline requirements for the new Men's Shed website. This included discussing a content management system and an e-commerce shop. The new website is still in development and once it has been finalized I will be maintaining it for 12 months.
